```java
public class AddTwo {
    public static void main(String[] args) {
        int a = Integer.parseInt(args[0]);
        int b = Integer.parseInt(args[1]);
        System.out.println(a + " + " + b + " = " + (a + b));

    }
}
```

```java
public class Coins {
    public static void main(String[] args) {
        int a = Integer.parseInt(args[0]);
        int quarter = a / 25;
        int cent = a % 25;
        System.out.println("Use " + quarter + " quarters and " + cent + " cents");

    }
}
```

```java
public class LinearEq {
        public static void main(String[] args){

                double a = Double.parseDouble(args[0]);
                double b = Double.parseDouble(args[1]);
                double c = Double.parseDouble(args[2]);
                double x = (c - b)/a;
                System.out.println(a + " * x + " + b + " = " + c);
                System.out.println("x = " + x);

        }
}
```

```java
public class Triangle {
    public static void main(String[] args) {
        int sideA = Integer.parseInt(args[0]);
        int sideB = Integer.parseInt(args[1]);
        int sideC = Integer.parseInt(args[2]);
        boolean result;

        result = ((sideA + sideB) > sideC) && ((sideB + sideC) > sideA) && ((sideC
                +  sideA) > sideB);

        System.out.println(sideA + ", " + sideB + ", " + sideC + ": " + result);

    }
}
```

```java
public class GenThree {
    public static void main(String[] args) {
        int a = Integer.parseInt(args[0]);
        int b = Integer.parseInt(args[1]);

        int range = b-a;
        int randomInt1 = (int)(Math.random()*range) + a;
        int randomInt2 = (int)(Math.random()*range) + a;
        int randomInt3 = (int)(Math.random()*range) + a;

        int min1 = Math.min(randomInt1, randomInt2);
        int min2 = Math.min(randomInt3, min1);

        System.out.println(randomInt1);
        System.out.println(randomInt2);
        System.out.println(randomInt3);
        System.out.println("The minimal generated number was " + min2);

    }
}
```
